Summary

This report analyzes the various Resultant Sets of Policy (RSOP) based on user settings on computers in the environment and helps point out commonalities in the sets and which users / computer combinations have the configurations applied.

Policy Set Utilization

Policy Set Utilization	Total	Percent
Policy Set 1	28	100%
Total	28	100%
Overall Total	28	100%

Policy Sets

A policy set represents a common set of policy settings that are shared by multiple users and computer combinations. The color coding in the table below helps you quickly identify similarities between policy sets.

Policy Setting	Policy Sets
	1
Software\Policies\Microsoft\Windows\Control Panel\Desktop\ScreenSaveActive	1
Software\Policies\Microsoft\Windows\Control Panel\Desktop\ScreenSaverIsSecure	1
Software\Policies\Microsoft\Windows\Control Panel\Desktop\ScreenSaveTimeOut	600
Utilization	100%
Instances	28

Policy Set Utilization

The policy set utilization table shows which policy sets are in use by each user and on which corresponding computers. Only computers that a user logs into are shown in policy set utilization table.

Policy Exceptions

Policy exceptions show variants of the policy sets in use. These are policy sets that are minor variations to the most popular policy sets. When possible, the variants are compared to the closest matching policy set.

No Policy Exceptions Detected.
